WORK EXPERIENCE

HCLTech, New Jersey

Sep 2024 - Present

Senior Global Engagement Manager

Jan 2026 - Present

- Built a nine-figure active pipeline and converted two midsize pharmaceutical prospects into revenue-generating HCLTech clients within four months through market intelligence, executive outreach, solution positioning, and commercial negotiation.
- Own end-to-end new-logo pursuits for midsize pharmaceutical clients, coordinating industry, solution, delivery, and commercial teams from qualification through contract negotiation.
- Lead recurring program reviews for Life Sciences offerings and indirectly manage a 30-person offshore team across active pursuits and client programs.

Global Engagement Manager

Sep 2024 - Dec 2025

- Managed strategy and growth initiatives within a \$100M+ relationship with a Fortune 50 healthcare company; advised global stakeholders on AI, data strategy, and cost-effective operating models.
- Expanded the account portfolio by \$10M year over year by identifying unmet client needs, shaping AI-led opportunities, and aligning proposals with global business priorities.
- Built a \$50M new-business pipeline and led the RFP strategy that secured an eight-figure, three-year global network transformation engagement.
- Supported the launch of a new capability within an India-based global capability center by coordinating stakeholders, scope, and delivery planning.

E-commerce Interface Developer, Nendrasys Technologies, Hyderabad, India

Jan 2021 - Mar 2022

- Built client-facing e-commerce experiences, including work supporting Accenture; developed a Tidio chatbot with 85% accuracy that increased customer satisfaction by 30%.
- Integrated Tidio with WordPress and HubSpot, reducing time and resource requirements by 15%; analyzed sentiment and purchase histories to support personalized recommendations.
- Contributed to process automation and successful project launches, earning multiple internal Applause Awards.

INTERNSHIPS AND ACADEMIC EXPERIENCE

Product Analyst Intern, Discovery Education, Charlotte, NC

Jun 2024 - Aug 2024

- Analyzed customer behavior and product usage for Discovery Education Experience, documenting customer problems and identifying opportunities across key segments.
- Partnered with product managers to frame hypotheses, design validation tests, and translate program results into recommendations for adoption and user journeys.

Graduate Teaching Assistant, UNC Charlotte

Aug 2023 - Jul 2024

- Developed Business Intelligence and Analytics course materials, supported assessment, and facilitated technical tutoring sessions.

Product Development Intern, Adobe, Bengaluru, India

Apr 2018 - May 2018

- Analyzed data using Python and SQL, created visualizations, evaluated predictive models using F1 and ROC measures, and partnered with marketing on recommendations and performance tracking.

EDUCATION

MS Data Science and Business Analytics, UNC Charlotte | GPA 4.0/4.0

Aug 2024

BTech Computer Science and Engineering, CHRIST University | GPA 3.65/4.0

May 2019

PROJECTS

- Crime hotspot reduction analysis: Analyzed and modeled Charlotte Police Department data and built dashboards to identify crime hotspots, informing targeted interventions that reduced crime by 73%.
- Satellite image segmentation: Developed a panoptic segmentation model to classify land use and land cover from satellite imagery, labeling multiple regions and calculating percentage allocations to support urban planning.
- Diabetes prediction: Built models using CDC survey data, addressed class imbalance, tuned hyperparameters, achieved 80% recall, and completed a cost-benefit assessment.
- Air-quality forecasting: Used Prophet, SARIMA, and LSTM models; the best model achieved 76% cross-validation accuracy.

LEADERSHIP AND RECOGNITION

- Recognized by HCLTech executive leadership as an emerging Life Sciences growth leader; selected for leadership development programming and national industry representation.
- Recipient of UNC Charlotte's Best Research Assistant Award; speaker at Women in Data Science Charlotte and Fleurix; guest on the STEM in Stilettos podcast.
